

Environmental, Health and Safety (EHS) Coordinator Job Description

RFS Technologies designs and manufactures premium-quality cable solutions for commercial wireless networks, mission critical communications, private networks, Distributed Radio Systems (DRS) and other telecom markets in North America. As an Amphenol company, we're part of a global powerhouse in high-technology, interconnect, sensor, and antenna solutions that's enabling the electronics revolution across almost every industry. Our access to Amphenol's innovations and resources means we are uniquely positioned to deliver the end-to-end wireless connectivity solutions you need, when and where you need them.

POSITION SUMMARY

The EHS Coordinator is responsible for the development, implementation and monitoring of company environmental health and safety programs and policies.
