

## Microwave Solutions at RFS Technologies

Welcome to RFS Technologies! If you're on the lookout for top-of-the-line microwave solutions that not only boast excellent performance but also promise reliability and quality, you've hit the jackpot with our Flexwell® elliptical waveguides. Let's dive right in and explore what makes our offerings the go-to choice in the North American market, shall we?

### Our Streamlined Offerings

At RFS Technologies, we focus on the four most popular elliptical models to cover the demand of 6 to 11GHz microwave products in the North American Market. By honing in on these specific models, we're able to provide cost-effective products by the streamlined supply chain and manufacturing line. And the cherry on top? Our optimized inventory means shorter lead times for you.

#### The Four Elliptical Waveguides

Let's get to know our star performers, shall we?

- **EP60** - This model is a gem for frequencies ranging from 5.6 to 6.425 GHz. It's perfect for various applications, ensuring you get the quality transmission you need.
- **EP65** - With coverage from 5.9 to 7.125 GHz, the EP65 is as versatile as they come, offering superb performance across a range of uses.
- **EP78** - If your needs fall within the 7.1 to 8.5 GHz frequency range, the EP78 has got your back, ensuring reliable and smooth transmission.
- **EP105** - Looking for something in the 10 to 11.7 GHz range? The EP105 is your go-to, providing unmatched quality and reliability.

### Comprehensive Package Solutions

At RFS Technologies, we understand the value of convenience. That's why we've curated comprehensive package solutions that not only include our renowned Flexwell® elliptical waveguides but also all the related accessories you need to build up the microwave site. From connectors to hanger kits, grounding kits, wall feed-through systems, twist flex and dehydrators, we've got you covered. Imagine the ease of having a one-stop shop for all your waveguide solution needs. No more juggling multiple vendors or worrying about compatibility issues. We've streamlined the process, allowing you to focus on what matters most—your project.

#### Waveguide Quick Ship Program

To stay ahead of the competition, you need the power to accelerate site deployments. And you need a partner that can help you get the job done.

The waveguide quick ship program ships commonly used elliptical waveguides and related accessories in two (2) weeks from Meriden, CT USA

## Why Choose Flexwell®?

Why do customers trust Flexwell® waveguide products? It boils down to three key factors: performance, reliability, and quality. Our products are crafted with the utmost care, ensuring they meet the high standards our customers have come to expect from us. Whether it's a large-scale installation or a smaller, more intimate setup, Flexwell® waveguides have proven their worth time and again. And it's not just about the products themselves; our team at RFS Technologies is dedicated to providing exceptional service, guiding you through selection, installation, and beyond.

## In Conclusion

Choosing RFS Technologies means opting for excellence. Our focused selection of elliptical waveguides, alongside our comprehensive package solutions, ensures you receive a superior product tailored to your needs. With Flexwell®, you're not just buying a product; you're investing in peace of mind.

Remember, whether you're a veteran in the field or venturing into the world of microwave solutions for the first time, our team at RFS Technologies is here to support you every step of the way. We're not just a provider; we're a partner in your journey to success.

So, ready to explore the possibilities with RFS Technologies? We're looking forward to being a part of your next project.
