

**TRIM-SET-L114-001**

Combination preparation tool (Universal Trimming Tool), CELLFLEX® Cable 1 1/4" for connector families OMNI FIT Standard B32 and RAPID FIT 062/072

This special trimming tool improves the cable preparation prior to connector attachment. No further tools are required to prepare the cable for the connector attachment. This is due to the unique design of the trimming tool, which combines all necessary functions in one tool. It can be used for CELLFLEX® LCFS/UCF114-50 foam dielectric cables in combination with the OMNI FIT Standard connector family B32 and RAPID FIT families 062/072.

The Universal Trimming Tool Series offers the additional advantage to be convertible to different connector families and cable types and sizes (CELLFLEX® cables and RADIAFLEX® cables 1 1/4" and 1 5/8") only by changing the inserts. Different inserts are available as optional items, for references see below or contact your RFS sales contact.
